Reporting Overview

A report overview and index of reports.

Teletrac exists to give owners and managers the fleet automation software tools to drive their business forward.

Location intelligence, from engine start time to mileage to alerts to service mileage scheduling, provides a backbone to those fleet automation decisions.

Teletrac's Fleet Director includes

16 standard edition reports.

Reports by Activity Goal

Goals

Monitoring: Know what's going on in the field and get a bird's-eye view of the fleet

Reports	How Report Addresses Goal			
Detailed Stops and Mileage Report	Gives detail of all stops and distance traveled as well as idle time and travel time between stops with a summary of the stop/idle/travel percentages for any given day.			
Exception Report	Gives a report history of exceptions by selected date.			
Idle Time Report	Gives an in-depth view of all idle time by location.			
Speeding Report	Gives detailed incidents of speeding within a selected date range.			
Stationary Time Report	Gives an overview of duration and locations where the vehicle is stationary.			
Duration Report	Gives a detail list of durations by status.			
Vehicle Mileage By State Gives miles traveled per state, per vehicle, for a selected date range.				

Fuel Management: Drive down fuel use and eliminate avoidable idle time

Reports	How Report Addresses Goal		
Exception Report Gives a report history of exceptions by selected date.			
Idle Time Report	Gives an in-depth view of all idle time by location.		
Speeding Report Gives detailed incidents of speeding within a selected date range.			
Vehicle Service Report	Gives detail about maintenance and service specifics by vehicle.		

Job and Customer Management: Increase the number of jobs, track customer visits and monitor on-time delivery

Reports	How Report Addresses Goal
On-Site by Vehicle Report	Gives detail by vehicle of time spent at both user-defined sites and addresses for a selected date range.
Detailed Stops and Mileage Report	Gives detail of all stops and distance traveled as well as idle time and travel time between stops with a summary of the stop/idle/travel percentages for any given day.

Dispute Resolution: Get detail to manage internal and external disputes

Reports	How Report Addresses Goal		
Detailed Report Gives a detailed list of each event that the vehicle reports, including location points and mes			
Message Report	Gives all messages sent to and from specific vehicles in the field.		
On-Site Detailed Report	Gives an overview of status changes and messages detailed by user-defined sites.		

Safety and Security Management: Promote safe behaviors and eliminate loss prevention

Reports	How Report Addresses Goal	
Exception Report Gives a report history of exceptions by selected date.		
Speeding Report	Gives detailed incidents of speeding within a selected date range.	
Vehicle Service Report	Gives detail around maintenance and service specifics by vehicle.	

Vehicle/Asset Management: Manage vehicle uptime and asset/settings lists

Reports	How Report Addresses Goal
Exception Report	Gives a report history of exceptions by selected date.
Stationary Time Report	Gives an overview of duration and locations where the vehicle is stationary.
Exception Conditions Report	Gives a list of exception conditions which trigger alerts.
Landmark List Report	Gives a list of all defined landmarks.
Vehicle List Report	Gives a list of all vehicles or assets with detail such as make/model/year, VIN and custom comments.
Subfleet List Report	Gives a list of all user-defined subgroups with the corresponding assets and vehicles.

Detailed Stops and Mileage Report

Gives detail of all stops, distances traveled, idle time and travel time. See a daily summary view for all vehicles.

Goals

Monitoring

Job and Customer

Management

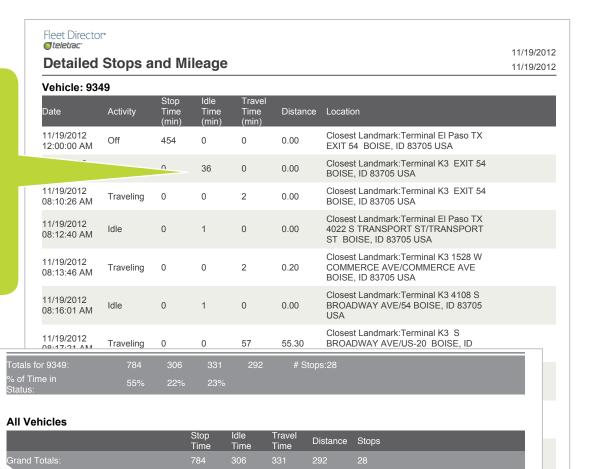

Highlights

 Provides a log of a vehicle's stop, idle and travel activity in chronological order and the context of location.

Advantages

 Beneficial for seeing the detail where excessive idle time or stop time is happening by location for a clear training intervention.

In this actual client report, see stop-idle-travel minutes between locations with a % summary for the day at the bottom of the report.

Monitoring
Fuel Mangement

Highlights

- Provides to and from times between locations.
- Lists idle time in minutes.

Advantages

Beneficial to see idle time isolated.

Fleet Director oteletrac

Idle Time Report

11/19/2012 11/19/2012

On-Site by Vehicle Report

Gives detail by vehicle of time spent at both user-defined landmarks and addresses for a selected date range.

Goals

Job and Customer Management

Highlights

- Provides a summary of time landmarks at sites of interest, such as customer locations.
- Report includes customizable filters to highlight excessive time a vehicle spent at a location.

Advantages

· Beneficial for easily seeing where vehicles are spending excessive time to manage and train for increased productivity.

In this actual client report, see highlighted time on-site concerns based on time thresholds set by the user.

29936

In this actual client report, see durations by status broken down in detail throughout the day for this vehicle.

Gives detailed incidents of speeding within a selected date range.

Goals

Monitoring Fuel Management Safety and Security Management

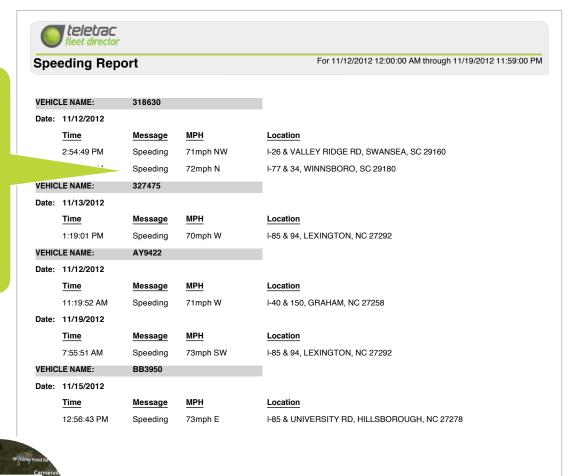

Highlights

• Includes time, speed and directional correlation with reporting locations.

Advantages

 Beneficial for getting detail about speeding incidents for monitoring and addressing through training.

In this actual client report, see speeding incidents broken down by vehicle.

Gives an overview of duration and locations where the vehicle is stationary.

Goals

Monitoring Vehicle/Asset Management

Highlights

 Report gives total duration and locations for stationary time by vehicle over a selected time period.

Advantages

 The report provides the ability to monitor stationary time in order to better manage business practices.

1 1

Gives detail around maintenance and service specifics by vehicle.

Goals

Fuel Management
Safety and Security
Management

Highlights

- Report shows when each vehicle is due for service.
- Supports custom service intervals, defined in either miles or hours of operation.
- 9 service types can be individually tracked per vehicle, e.g. oil service, air filter, brakes, engine coolant, tires replace, tires rotate, transmission fluids, transmission service, tune up.

Advantages

- Beneficial for proactively planning vehicle servicing across the fleet.
- Reduce the risk of mechanical breakdown or invalidation of vehicle warranty by following service schedules.
- Flag vehicles which are overdue for servicing.

Fleet Director

Vehicle Service Report

Vehicle: BT 06	Las	t Service		Next Service		
Service Type	Date	Miles	Cost	Engine Hours	Days To	Miles To

Ignition Off

In this actual client

report, view speed

as triggered events

such as ignition-on

and off and breaking

and locations as well

Gives all messages sent and received from specific vehicles in the field.

Goals

Dispute Resolution

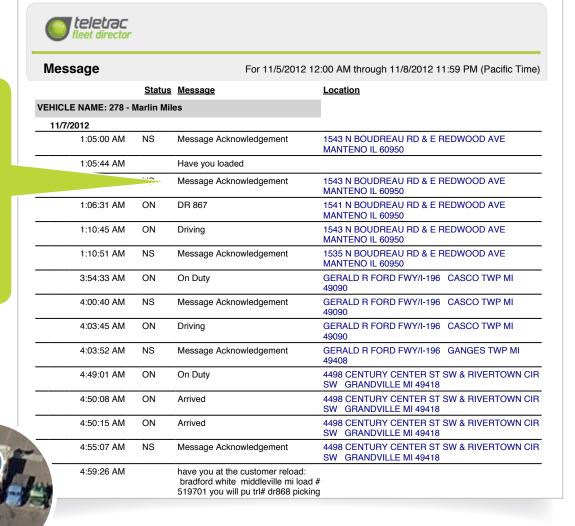

Highlights

- Similar to the Detailed Report but with location removed and message texts and driver acknowledgements shown.
- Report expands to include driver and dispatch messaging when the in-cab Fleet Director Tablet is specified.
- Includes log of ignition status changes, break status and HOS status changes.

Advantages

 Beneficial for reviewing specific message detail.

In this actual client report, see when and where each message and driver status change was sent.

On-Site Detailed Report

Gives an overview of status changes and messages detailed by user-defined landmarks.

Goals

Dispute Resolution

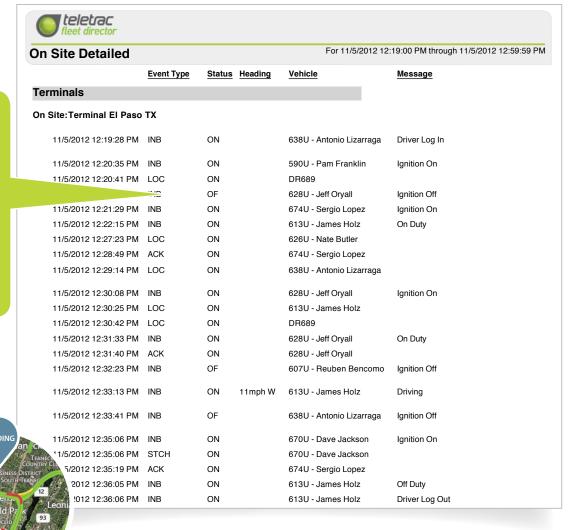

Highlights

- · Report provides events, status changes and vehicle headings by user-defined landmarks.
- · Example use includes making sure all drivers leave the yard by 9 a.m. or that all drivers leave through the southern gate or that all drivers at a specific depot are on duty by 8 a.m.

Advantages

• Beneficial for sites specific management including time of day.

In this actual client report, view status messages and events at this landmark part of the landmark subgroup defined for the client.

Vehicle/Asset Management

Highlights

- Includes a standard set of exception settings such as breaching a geo-fence around a landmark or the use of a vehicle outside of permitted hours.
- Customized settings can also be easily created in the software.

Advantages

 Beneficial in reviewing exception conditions managed across a fleet.

Fleet Director

Vehicle/Asset Management

Highlights

- Used for customer and terminal locations or other critical business landmarks in order to better manage fleet operations.
- The report provides 30,000 landmarks that can be used for anything from rest stops to known speed traps, to dangerous areas to customer delivery points.

Advantages

• Beneficial for viewing a clear list of managed locations.

Fleet Director•

Vehicle List Report

Gives a list of all vehicles or assets with detail such as year/make/model, VIN and custom comments.

Goals

Vehicle/Asset Management

Highlights

- Report provides a list of all vehicles in a fleet by year, make, model, color, state, license, VIN number and VLU ID.
- · Custom comments can be added.

Advantages

 Beneficial for a quick list of vehicles and assets.

In this actual client report, see sample assets in a list view.

Gives a list of all user-defined subfleets with the corresponding assets and vehicles.

Goals

Vehicle/Asset Management

Highlights

- Allows rollup data views by subfleet where available.
- Can be used in lieu of the Vehicle List Report when subfleet are defined.

Advantages

 Beneficial for managing shifts, territories, regions and vehicle types for areas of management responsibility.

Vehicle Mileage By State Report Gives miles traveled per state, per vehicle, for a selected date range.

Goals

Monitoring

Highlights

- Provides a breakdown of miles driven in each US state, per vehicle.
- Report can be run for a single vehicle, selected vehicles or the entire fleet.
- User can select the required date range.

Advantages

· Beneficial for state fuel tax reporting.

For 01/01/2013

In this actual client report, see travel distance per vehicle broken down by state.

Fleet Director Vehicle Mileage By State
